

## Information Regarding Solutions

Unfortunately, being able to solve problems is not the same as being able to write solutions. These solutions are meant to help demonstrate what *written* solutions to the problems might look like. If you read a solution of a problem that you haven't solved yourself, it may seem to come from out of nowhere or be very abstract. When this happens, it is a golden opportunity for you to spark an exciting discussion in an extra problem session or on the Math 194 EEE forum.
