A. Please comment on the following areas and be as specific as possible:

1. What are the instructor's teaching strengths?

   - Able to explain things clearly.
   - Easy to understand.
   - Enthusiasm, clear and concise explanations, patience, willingness to work with students.
   - explain samples and homework carefully
   - He's very caring for the class and knows the teaching materials very well.
   - He really goes in depth on the math concepts and explains them. He makes the material easy to understand.
   - knowledgeable, he would like to ask students to answer the queations.
   - Matt is probably one of the best instructors that I have ever had at UCI. He became a mentor for me through the duration of the course and offered me help whenever I needed it. I really learned a lot extra about Linear Algebra as a whole and its application in computer science. His enthusiasm and accountability for his students makes him an exemplary instructor.
   - Ta answers us question clearly and give the example. and always patient.
   - 5 blank answer(s).

2. How can this instructor improve as a teacher?

   - He could not be better and sometimes he need speak loud.
   - Matt was a great instructor and I cannot discern how he can improve.
   - N/A
   - None
   - Perhaps a little slow with explanations.
   - save time for important questions
   - 8 blank answer(s).

3. Any other comments about this course?

   - good
   - N/A
   - no
   - None
   - Nope.
   - nothing.
   - This course was very challenging. I feel as though even though I knew all of the course material and did the course practice problems multiple times; I believe that the Midterm/Quizzes were written in such as way to trick students. The Midterm was too long and was worded in such a difficult way that students had a tough time knowing what they needed to do to solve the problem.
   - This T.A. was the reason I remained invested in the course; I was able to learn more from him than from the professor.
   - 6 blank answer(s).
